Diocese VPN instructions 2016
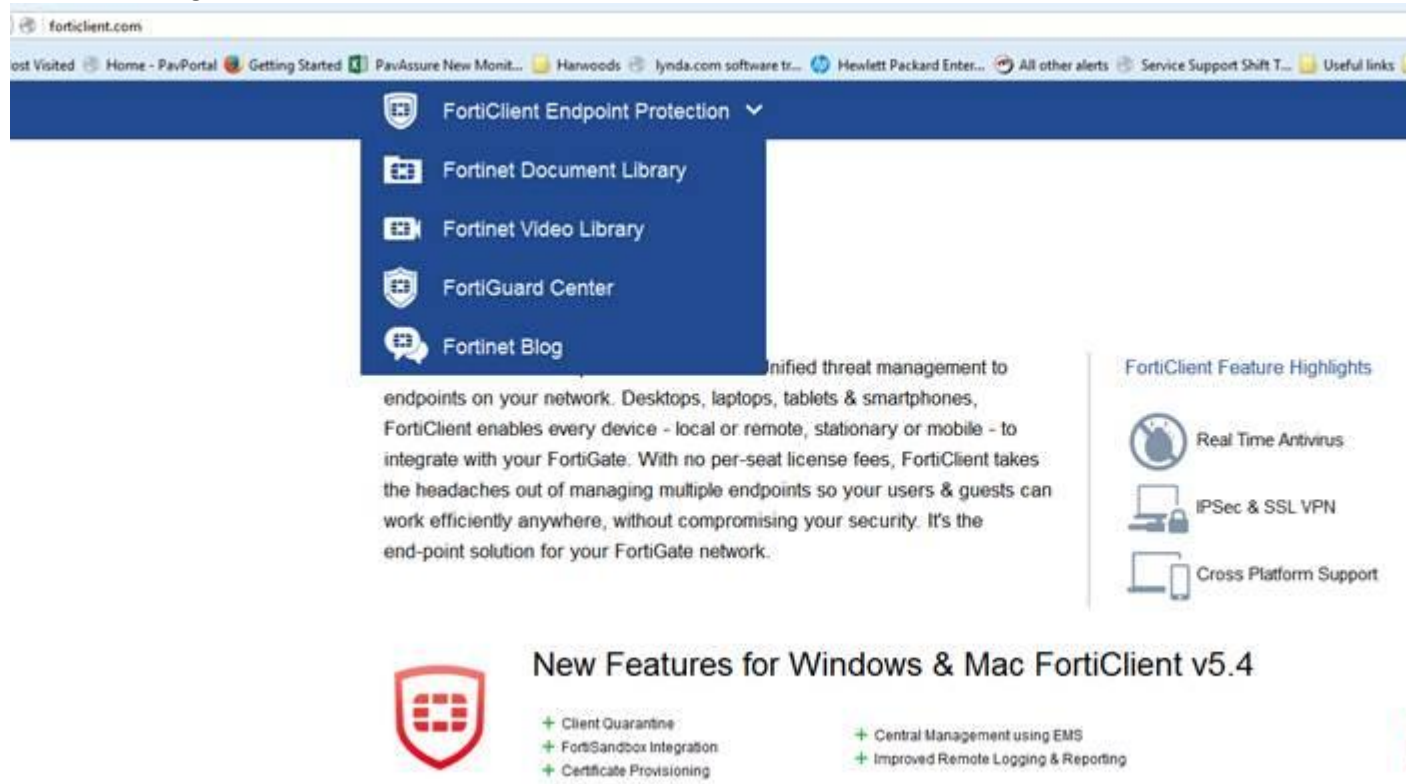

Please find instructions below:

1. Please go to www.Forticlient.com and download FortiClient v5.4. Press FREE Download

2. Choose Forticlient for windows:

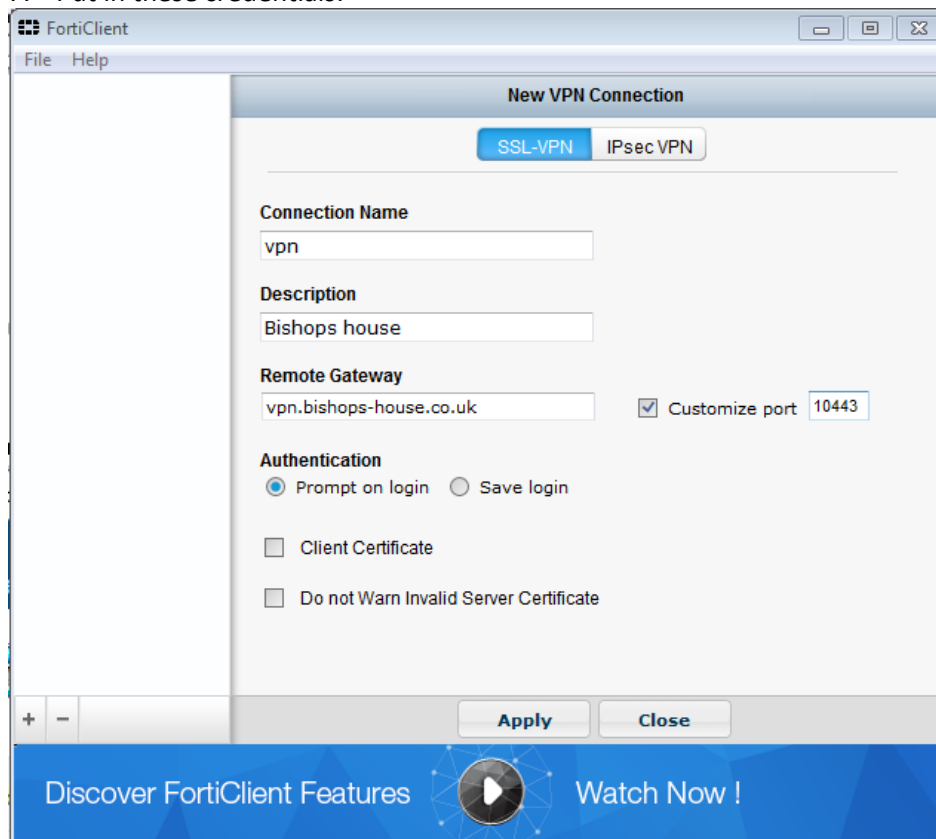

3. Click download and then save the file. Once it's saved you will be able to run it. It will then install (you will have to accept the licence agreement before continuing).
4. Forticlient virus cleaner may run. If it does, let the program run for a few minutes.

FortiClient Virus Cleaner

Scanning for viruses and malware, this will take a couple of minutes...

Action: scan
Location: C:\Windows\system32\drivers
Item: rzpnk.sys
Scanned files: 43   Scanned boot blocks: 0
Infected files: 0   Infected boot blocks: 0

[Pause]   [Stop]

Infected item list:

Status	Virus	Infected Item

Log file: C:\Users\samb\AppData\Local\Temp\FCPreScan\logs\a   [View Log...]
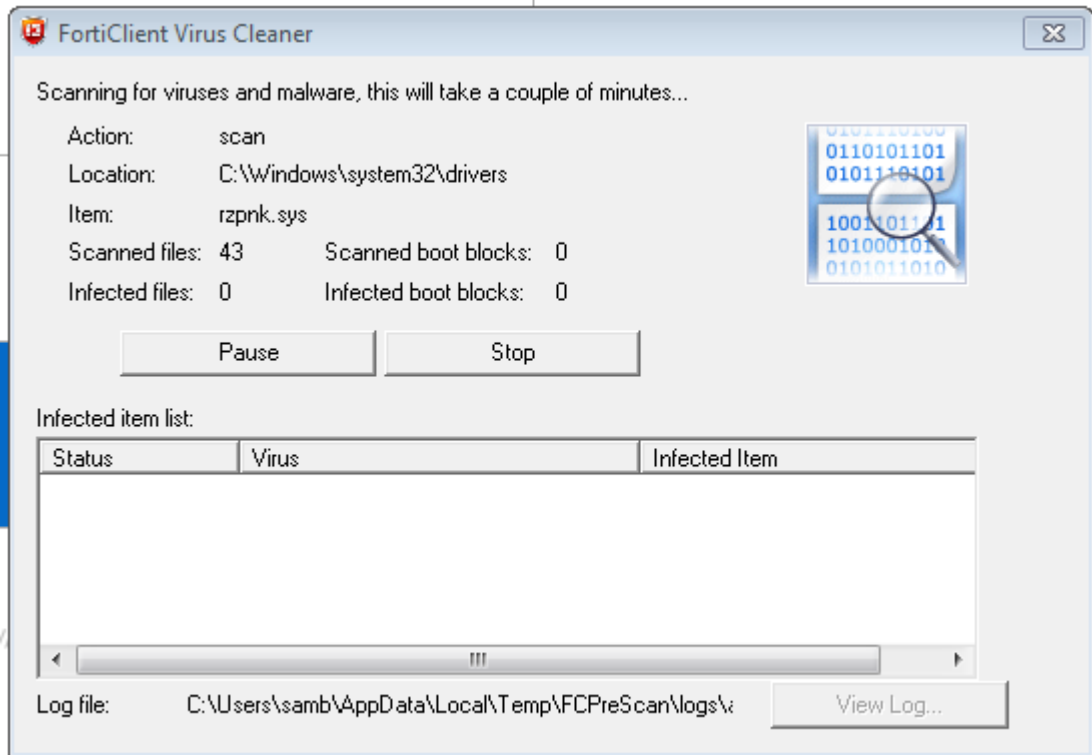

5. You will be asked to install either 'complete' or 'VPN only'. Select VPN only, and then press finish once it's installed.
6. Once this has been installed go to start and then run Forticlient.
7. Put in these credentials:
